Subject: Agenda item #6 - change in parking ordinance

RECEIVED
OCT 7 2013
CITY OF MILL VALLEY

I understand you will be voting to ratify changes in 10.04.190 and 10.04.195. I strongly urge you to NOT ratify these tonight and instead delay these until interested parties can weigh in. The ordinance already covers vehicles over 35 feet long and camping on the streets. While neighbors might not LIKE RVs, pick-up trucks, etc., I don't like my neighbors parking their 4 cars and mini-van in front of their house. Nor do I like my neighbors putting up a construction dumpster in front of their construction that sits there for weeks on end. Nor do I like my neighbors putting their trash cans on the side walk nor do I like my neighbors ivy walls sticking over the side-walk so that I have to walk on the street. Each of us have our own lives. If there is a specific safety hazard, then the ordinance should give police the right to request the owners to move the vehicle so that safety hazard is eliminated. General elimination of parking rights for these vehicles will cost the owners the cost of storage, etc. and create a higher cost of living for those of us in an already costly place. Please vote NO on amending sections 10.04.190 and 10.04.195 (Agenda item #6).

Thank you

Jane Black
