

STAFF REPORT

TO: Bicycle and Pedestrian Advisory Committee (BPAC)

FROM: Elisabeth Thomas-Matej, BPAC Member
Cecilia Zamora, Associate Engineer

DATE: April 24, 2013

SUBJECT: Public Education - Continue

1 **ISSUE:** Consider items on attached document for inclusion on BPAC future agendas

2

3 **RECOMMENDATION:** Provide comments - Continue

4

5 **BACKGROUND/DISCUSSION:**

6

7 Developing information for residents and visitors is an item identified in the BPAC work plan.

8 Committee member Elisabeth Thomas-Matej has put together the attached document following

9 discussions on the December 12, 2012 meeting. The items in the attached document include

10 presentations on the rights and duties of cyclists under California vehicle code, as well as

11 informative website links that can be incorporated into the City website in order to advance

12 public education. Discussion of the attached document started at the February 13, 2013 meeting.

13

14 Staff requests Committee to select two or three items from the attached list for inclusion on

15 future agenda and provide comments. Staff recommends that these items focus on City Website

16 issues particularly relating to bicycle safety. During the discussion on February 13, the BPAC

17 reported that most of the information on the City website is vehicle centered, and that the public

18 shall have access to bicycle safety information.
