

STANDARDS FOR THE DESIGN OF PARKING SPACES
City of Mill Valley, California

PARALLEL PARKING ALTERNATES

ORDINANCE No. 611 (11-11-64)
20-60-090 A
ORDINANCE No. 961 (6-2-80)
added COMPACT CAR SPACES,
20-60-090 F. Dimensions
established by Planning
Commission at meeting of
April 14, 1980

Sharpest Right Turn of
Passenger Vehicle

Compact: 8'x17'
Full size: 9'x20'

NOTES:

1. All spaces must be minimum of 9 by 20 feet. Provisions for compact car spaces are 8' by 17'.
2. The minimum width of a one-way drive is 12 feet.
3. The minimum width of a two-way drive is 20 feet.
4. Space for turning around must be provided for parking areas of four or more spaces, so that no cars need back into the street.
5. The above requirements are minimum standards; they will not necessarily provide good design. It may be advantageous to use larger dimensions in some cases.
